NOTICE TO THE MARKET

Padtec announces a partnership with UfiSpace and IP Infusion to enter the switches and routers market

Campinas/SP, May 19, 2023 – PADTEC HOLDING S.A. (B3: PDTC3) (“Company” or “Padtec”) informs that Padtec S.A., a leading manufacturer of optical transport systems, celebrated a partnership with UfiSpace (<https://www.ufispace.com/>) from Taiwan and IP Infusion (<https://www.ipinfusion.com/>) from the USA, aiming to provide a comprehensive solution of switches and routers to its customers. This agreement is part of the Brazilian supplier's strategy to expand its presence, product, service, and solution portfolio, keeping up with market trends and demands.

By entering the switches and routers market, Padtec aims to offer an end-to-end solution for communication networks. To achieve this, their new product platform combines UfiSpace's line of switches and routers, which caters to the trends of disaggregated and open networks, with the globally recognized OcNOS software (network operating system) from IP Infusion, known for its advanced solutions for network disaggregation. "The result is a complete, efficient, competitive, and market-demand-driven solution", highlights Carlos Raimar, CEO and Investor Relations Director at Padtec.

"Throughout its journey, Padtec has always focused on continuous improvement of its solutions, aiming to offer high-tech products that positively contribute to our customers' businesses," highlights Argemiro Sousa, Business Director at Padtec. "In this regard, UfiSpace and IP Infusion are strategically positioned to assist us in delivering a solution that meets the expectations of our customers", concludes the executive.

About Padtec (padtec.com)

Padtec is a Brazilian multinational that aims to bring high-capacity connections to life throughout Brazil, the Americas, and worldwide. From the small town to the bustling metropolis. For every person, for every type of business. With more than two decades down the road, we are proud to know that we work side by side with our customers to offer services capable of bringing people together. It's this way that, breathing technology and collaborating, we get where no one else gets. We dare to use our knowledge to design new futures and accompany a world in constant evolution. This is our way to boost connections to create new realities.
